

Critical Mass is a civic initiative aimed to point out the necessity of cycling transport development in towns as a rapid, ecological and healthy transport alternative. It is a ride of group of cyclists (it could be several hundredsof cyclists) through the town on last Friday every month. The event is held in diferrent world towns.

In Bratislava the Critical Mass has already a long-standing tradition (<http://www.criticalmass.sk/>) and it is always supported by many cyclists. On 26th September 2014, we also participated in the event with Miss Slovakia 2014 Laura Longauerová.

We launched from the Old Town (Centre of Bratislava) and we were riding through the city to Račianske mýto. It took more than 90 minutes. Laura rode excellently, even though she did not ride her own bicycle.

More photos from the action you can see [HERE](#) .

Miss Slovakia 2014 at Critical Mass in Bratislava
