

Conference “***Ecodriving for cleaner air not only in Slovakia***” was organised by a civic association CEPTA as a final event of the project Clean Air, focused on ecodriving support in the Slovak Republic. The conference was attended by experts, instructors, as well as delegates from three ministries: Ministry of Environment of the Slovak Republic, Ministry of Interior of the Slovak Republic and Ministry of Transport, Construction and Regional Development of the Slovak Republic. The problem of transport and polluted air is related to all three ministries. Presentations of the participants are attached below this article.

At the beginning of the conference, the concept of ecodriving was presented. ***M. Veverka*** (CEPTA) explained its principles and rules and

***J. Čumpelík***

(ECOdrive.cz), experienced and successful ecodriving instructor showed its hidden potential and possibilities especially for fleet companies. After thorough implementation of ecodriving, annual savings of million Czech crowns are not exceptional. However, it is necessary to keep in mind right communication, drivers' motivation and their life-long learning of drivers.

# Conference on ecodriving, transport and air in Banská Bystrica on 10th September 2015
